AMENDMENT

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

This amendment is submitted in response to a third non-final office action dated April 21, 2006 ("Third Office Action") in which the Examiner rejected certain claims as directed to non-statutory subject matter (35 U.S.C. §101) and rejected all the claims as anticipated (35 U.S.C. §102) or obvious (35 U.S.C. §103) over cited art.

On July 12th, the attorney for Applicants and the Examiner held a phone interview discussing the rejections. The Examiner indicated that the Section 101 rejection would be withdrawn if Applicants amended the independent article of manufacture claims. Applicants amend herein the article of manufacture claims as discussed during the phone interview and request that the Examiner to withdraw this rejection.

During the phone interview, the prior art rejections were discussed. Although no agreement was reached with respect to the prior art rejections, the Examiner requested Applicants to present their arguments to allow the Examiner to reconsider the rejection in view of the presented arguments. Applicants submit the arguments herein presented during the phone interview and submit that all pending claims 1-4, 6-8, 11-14, 15, 16, 18, 19, 22-26, 28-30, 33-38, 40, 41, 44-48, 50-52, 55-60, 62, 63, 66-68, and 73-95 are patentable over the cited art and in

condition for allowance for the reasons discussed herein. Applicants further amended the claims to clarify the language and correct minor errors.

Amendments to the Claims are reflected in the listing of claims which begins on page 3.

Remarks/Arguments begin on page 22.
